## BYOT Policy

Madison-Plains Local School District recognizes the important of technology and the educational benefits available through the use of technology. The use of portable electronic devices in the classroom can add educational value when such devices deliver content and extend, enhance and reinforce the student learning process. Classroom teachers determine the appropriateness of in-class use of electronic devices, consistent with District instruction objectives, and with the approval of the building principal.

All personal electronic devices must be used in a responsible, and legal manner. Students using their own devices are subject to the District Acceptable Use policy and guidelines, Board-approved BYOT guidelines, all other Board policies and procedures, including but not limited to the Student Code of Conduct. Failure to adhere to these guidelines may result in the revocation of the privilege to use personal electronic devices in the classroom and/or disciplinary action as appropriate.

Students using their own electronic devices may access only the wireless internet provided by the District. The District-provided internet access is filtered in compliance with the Children's Internet Protection Act. Internet access from outside sources allowing for 3G or 4G access is not permitted.

The school reserves the right to inspect a student's personal electronic device if there is reason to believe that the student has violated Board policies, regulations, school rules or has engaged in other misconduct while using their personal electronic device.
